Section 2: Reason for Distribution

This information is required for IRS reporting purposes. In most situations, TCA by E*TRADE is required to issue a Form 1099-R for distributions from your IRA. Depending on the nature of the distribution, the distribution may or may not be taxable. *Note: If no selection is made, TCA by E*TRADE will default to either "normal" or "premature" distribution based on your age. For additional information, consult your tax advisor or the IRS.*

Select one of the following distribution reasons.

- **Normal** (age 59½ or older) Also used for a Required Minimum Distribution (RMD) or if you intend to rollover the distribution to another retirement plan within 60 days.

- **Premature distribution.** (under age 59½; may or may not be subject to 10% early withdrawal penalty). *Note: For additional information, consult your tax advisor or the IRS.*
- **Disability** (under age 59½; not subject to 10% early withdrawal penalty) Under the Internal Revenue Code an individual is deemed to be disabled if "he is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration." *Note: The Social Security definition of disability does not apply here. Proof of disability may be required by the IRS.*
- **Early SIMPLE IRA distribution** (under age 59½; first contribution was less than two years ago; subject to 25% penalty tax) Use this method if you are under 59 ½, your first contribution was less than two years ago, and none of the exceptions allowed by the IRS are known to apply. You may be subject to a 25% penalty tax. *Note: The two-year period begins on the day contributions were first deposited into your SIMPLE IRA. For additional information regarding exceptions, consult your tax advisor or the IRS.*

Full RMD amount. TCA by E*TRADE will calculate and distribute the total RMD amount for the year. *Note: Any previous distributions for the year will be ignored.*

Remaining RMD balance. TCA by E*TRADE will calculate the total RMD amount for the year, subtract any previous distributions for the year, and distribute the remaining amount.

Important: The RMD calculation will be based on the information available to TCA by E*TRADE. The account owner is responsible for notifying TCA by E*TRADE if there are any outstanding rollovers, outstanding transfers, conversions, or recharacterizations that are not reflected on the previous year-end statement.

Important: TCA by E*TRADE will calculate the RMD using the Uniform Lifetime Table unless the sole beneficiary is a spouse more than 10 years younger than the account owner.
